

Interview with a veterinary nurse

Jean English RN VN MBVNA

Question - Would you recommend the nappies to friends & family for their pets, if so, why ?

Answer = I would most definitely recommend them to clients, friends and family. They are a very useful product for an animal who is incontinent or sprays in the house. One can put the nappy on and then one does not have to follow the animal around to make sure it is not spraying inside.

Question - How did you find the nappy in terms of its quality ?

Answer = The quality of the product is excellent.

Question - How has the nappy has helped Marvin [THE CAT] specifically ?

Answer = It has helped my cat as I can put the nappy on and then leave him to wander where he likes. Before I had to either follow him around or shut the doors to make sure he did not spray.

Question - How easy did you find the nappy to fit ?

Answer = The nappy is easy to fita really great product and I am really happy with it.

Jean English RN VN MBVNA - Jean is a Registered Veterinary Nurse and a Member of the British Veterinary Nursing Association.
